

Karma Cartoon

The action:
what you do and your intentions

The immediate effect:
what happens right there and then

Ha ha!
I just stole
her silly toy
that she keeps
messing
around with!

Yes!
I think I got away with it....

The long term effect:
What happens to you in the future

How you experience this,
your feelings

Oh no.
Where's that gone?

I feel terrible!
I've lost MY favourite game!
